

• Seed Round · Seeking \$8M · India HealthTech

Building the OS for Indian healthcare.

The first unified, AI-native healthcare platform for India —
connecting hospitals, clinics, pharmacies, and 1.4 billion patients
through one warm, intelligent ecosystem.

ABDM

DPDP 2023

NABH

CDSCO

IRDAI

GST e-Invoice

THE PROBLEM

Indian healthcare is fragmented, paper-based, and invisible.

70% of Indian healthcare runs on paper registers. Patients carry physical files across hospitals. Doctors write prescriptions by hand. Pharmacies maintain stock in notebooks. There is no unified patient identity, no longitudinal health record, no real-time data.

70%

Paper-based
clinics still use registers

0

Patient identity
no unified health record

4 hrs

patient owns nothing

THE SOLUTION

One ecosystem. Seven products. Zero friction.

Nexura OS unifies every stakeholder — hospitals, clinics, pharmacies, patients, doctors — into a single AI-native platform. One login. One health record. One warm experience.

Hospital OS

18-module HMS with AI clinical intelligence, NEWS2, NABH compliance

Clinic OS

HealthPlix-style EMR with SOAP, drug autocomplete, ABHA registry

Pharmacia

AI pharmacy POS with voice billing, Rx OCR, GST e-invoice

Patient Portal

Unified health record + blood test at home with AI interpretation

Connect

Doctor-patient chat, voice, video across all products

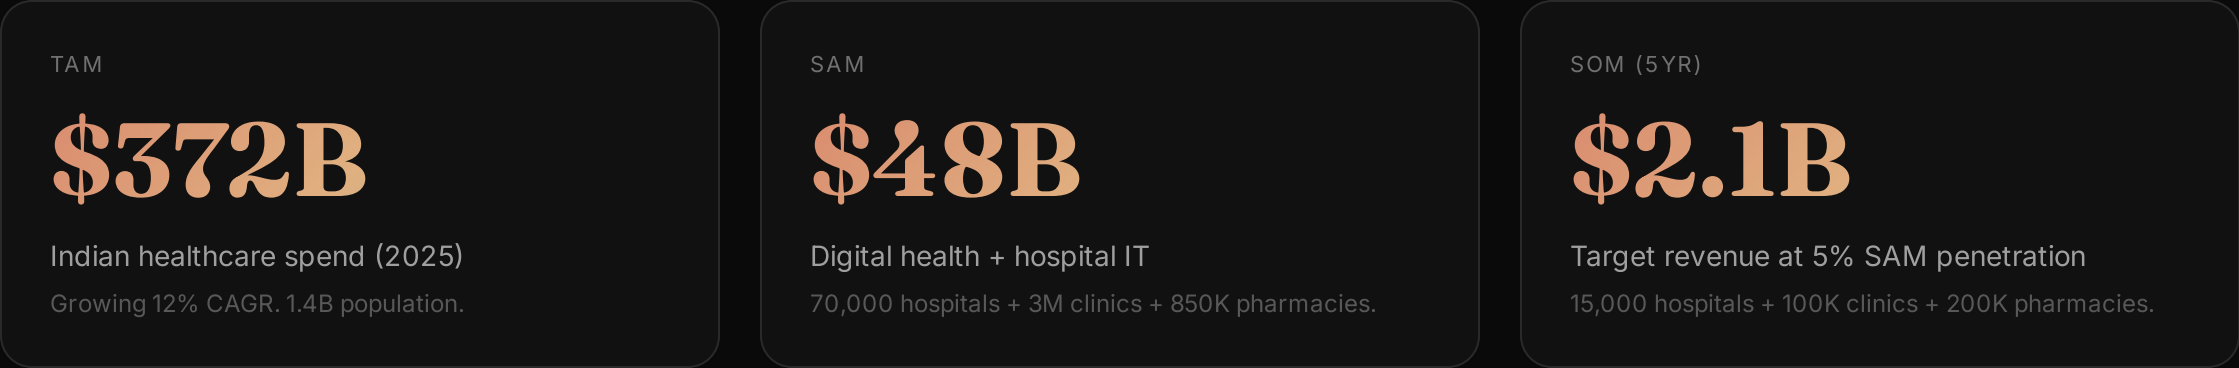

Know Your Health

15 AI tools — symptom checker, derma scan, diet planner, X-ray reader

MARKET OPPORTUNITY

372B Indian healthcare. 48B digital health.
We're building the rails.

The ABDM tailwind

The Ayushman Bharat Digital Mission (ABDM) is India's national mandate to digitize healthcare. Every patient gets an ABHA ID. Every hospital must connect. Every prescription must be digital. This is a forced market creation — and Nexura OS is built natively for it.

680M+	₹41B	2026

Pilot pipeline (in discussion)

ORGANIZATION	CITY	SCALE	STAGE
Aarogya Multi-Specialty Hospital	Mumbai	220 beds	Pilot signed
Sunrise Pharma Chain	Pune	12 stores	Demo scheduled
Dr. Rao Family Clinic	Mumbai	3 doctors	Live (pilot)

SaaS + transaction fees. B2B2C flywheel.

Revenue streams	
 Hospital OS — SaaS ₹50K–₹5L/month per hospital Tiered by bed count + modules	
 Clinic OS — SaaS ₹2K–₹15K/month per clinic Tiered by doctor count	
 Pharmacia — SaaS + transaction ₹1K–₹8K/month + 0.5% UPI Per pharmacy + payment fees	
 Blood Test at Home ₹199–₹2,999 per test 30% margin after phlebotomist + lab	
 AI API (B2B) ₹0.50–₹5 per AI call Symptom checker, Rx OCR, lab interpretation	
Unit economics (Year 3 target)	
ARPA (hospital)	₹2.4L/yr
Gross margin	82%
CAC (hospital)	₹1.8L
LTV (hospital)	₹24L
LTV/CAC ratio	13.3x
Payback period	9 months
Net Revenue Retention	128%

COMPETITIVE LANDSCAPE

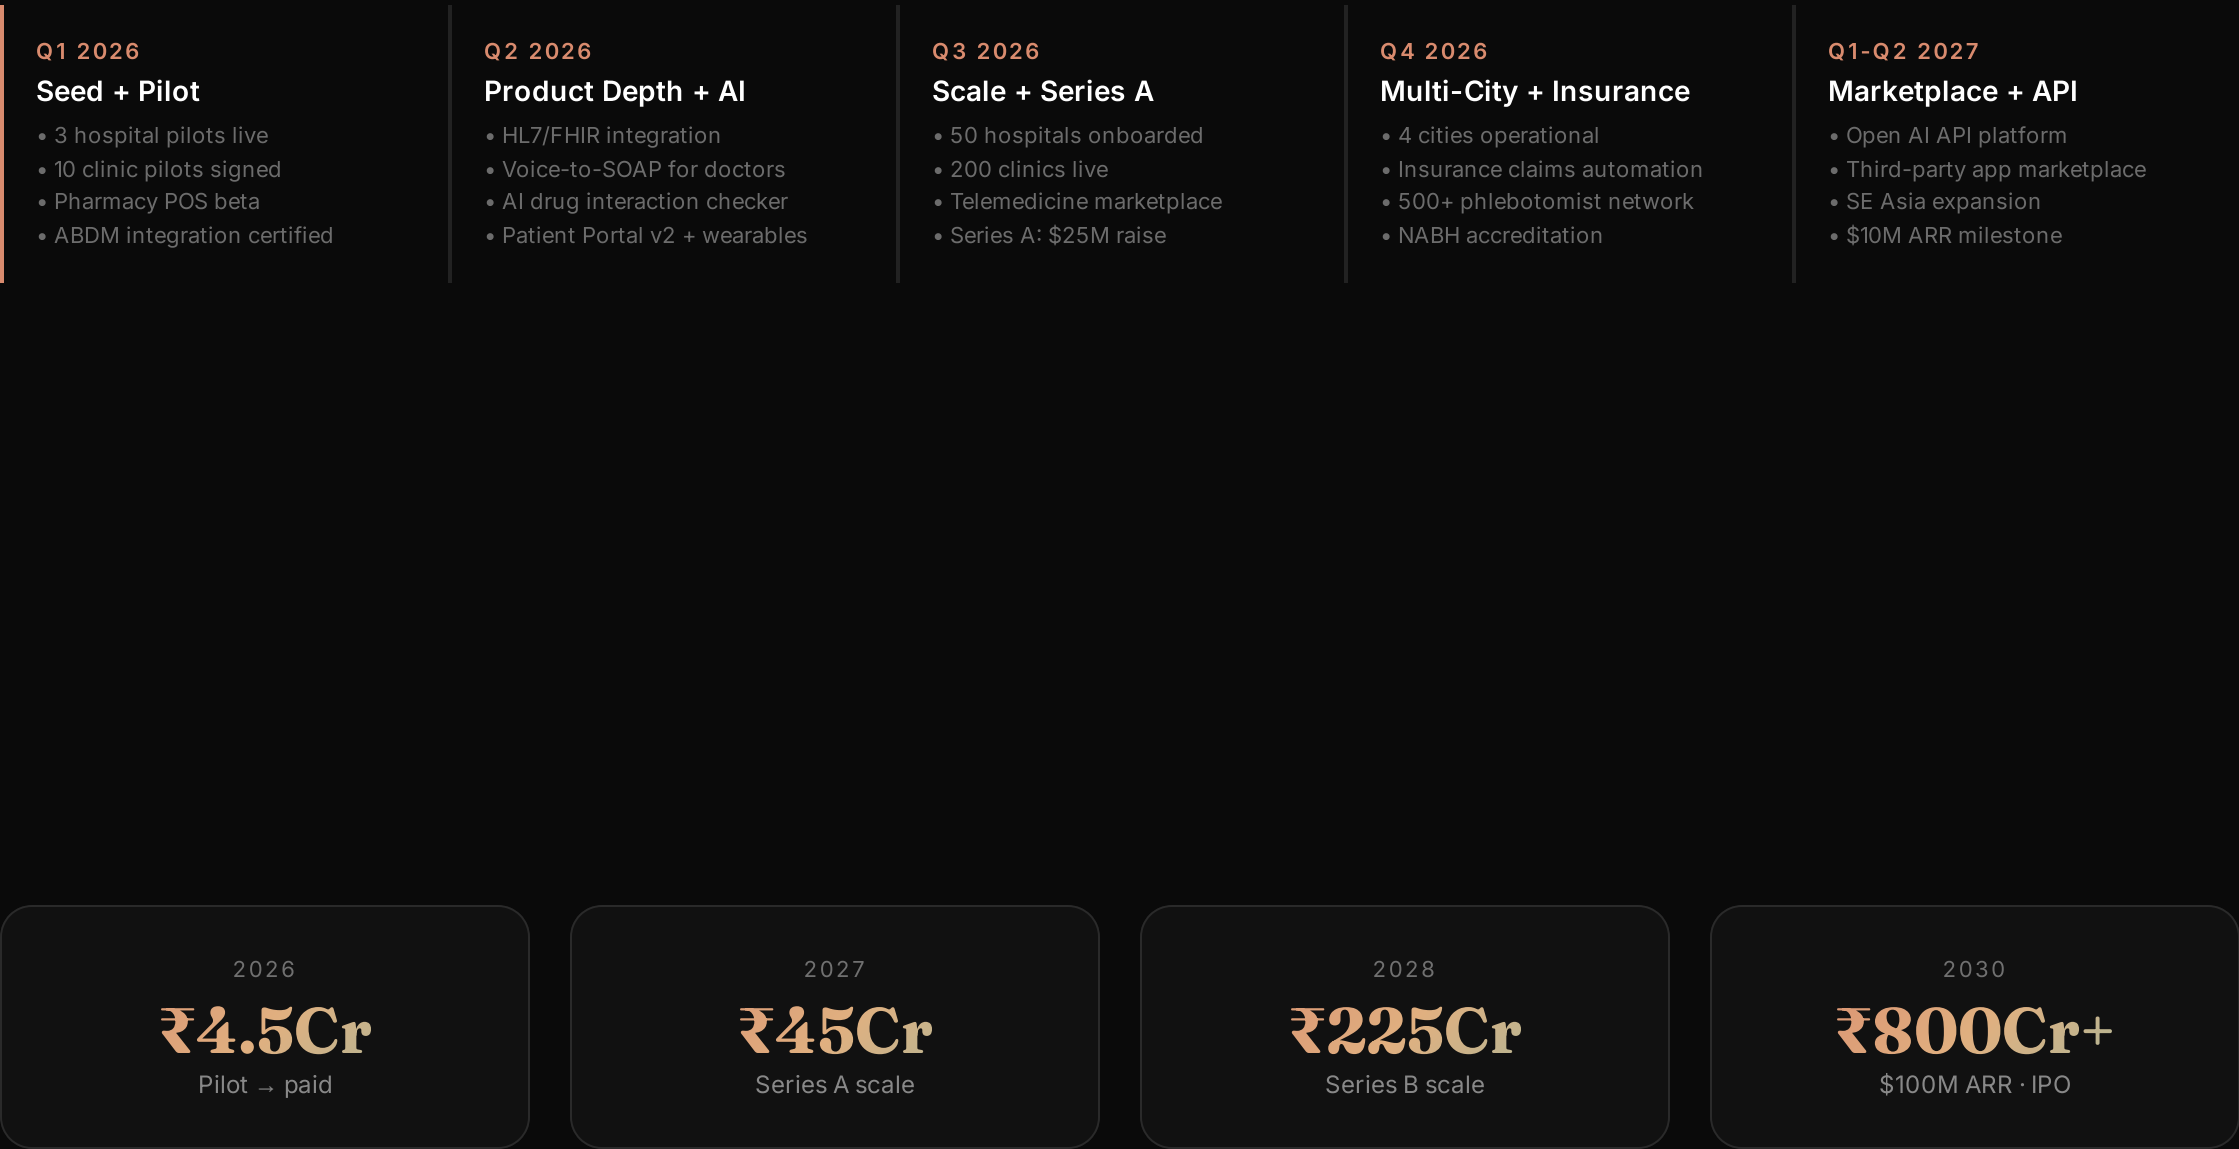

No one does what we do. Not even close.
